Notice of Allowability	Application No.	Applicant(s)	
	09/803,265	TSUNASHIMA ET AL.	
	Examiner	Art Unit	
	Jennifer M. Dolan	2813	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address--

All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. **THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS.** This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.

1. ☒ This communication is responsive to the amdt. of 2/19/2004.
2. ☒ The allowed claim(s) is/are 5,24 and 26-30.
3. ☒ The drawings filed on 09 March 2001 are accepted by the Examiner.
4. ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 - a) ☒ All b) ☐ Some* c) ☐ None of the:
 1. ☒ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

* Certified copies not received: _____.

Applicant has THREE MONTHS FROM THE "MAILING DATE" of this communication to file a reply complying with the requirements noted below. Failure to timely comply will result in ABANDONMENT of this application.
THIS THREE-MONTH PERIOD IS NOT EXTENDABLE.

5. ☐ A SUBSTITUTE OATH OR DECLARATION must be submitted. Note the attached EXAMINER'S AMENDMENT or NOTICE OF INFORMAL PATENT APPLICATION (PTO-152) which gives reason(s) why the oath or declaration is deficient.
 6. ☐ CORRECTED DRAWINGS (as "replacement sheets") must be submitted.
 - (a) ☐ including changes required by the Notice of Draftsperson's Patent Drawing Review (PTO-948) attached
 - 1) ☐ hereto or 2) ☐ to Paper No./Mail Date _____.
 - (b) ☐ including changes required by the attached Examiner's Amendment / Comment or in the Office action of Paper No./Mail Date _____.
- Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d).
7. ☐ DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 5, line 7, --;-- has been added after "nitrogen"

In claim 26, line 11, "rations" has been changed to --ratios--.

2. Claims 5, 24, and 26-30 are allowed.
3. The following is a statement of reasons for allowance.

The prior art of record, considered as a whole, fails to teach or suggest making a fluorine-containing silicate and a metal oxide for gate insulation using different metal elements for the silicate and the metal oxide or with different metal elements for two separate regions, along with the remaining structure recited in the claims.

The closest art of record is U.S. Patent No. 6,057,584 to Gardner et al., which suggests a gate insulating layer using two layers of metal oxide, wherein different metals are used for each layer, but doesn't suggest that one of the layers is a fluorine-containing silicate. U.S. Patent No. 6,020,243 to Wallace et al. suggests a gate insulating layer comprising a fluorine-containing silicate and a metal oxide, but there is no motivation to combine the references, such that a metal silicate and a metal oxide use different metals.

Art Unit: 2813

The present inventive feature of having a gate insulator formed by a metal oxide on top of a fluorine-containing silicate having a metal different from the metal oxide improves upon the prior art by allowing for a wide selection of gate insulator thicknesses, dielectric constants, and bonding properties with the silicon substrate and gate electrode layers.

4. The related art made of record and not relied upon is considered pertinent to applicant's disclosure.

U.S. Patent No. 6,713,846 to Senzaki discloses a gate insulating film having a first metal oxide layer and a second metal-silicon-oxide layer, with the metal components either being the same or different for the two layers (see column 2, especially). Although Senzaki teaches elements substantially similar to the claimed invention, it does not constitute prior art and is only being cited as an item of interest to the Applicant.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer M. Dolan whose telephone number is (571) 272-1690. The examiner can normally be reached on Monday-Friday 8:30am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl W. Whitehead, Jr. can be reached on (571) 272-1702. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Art Unit: 2813

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
